

Movo Aviation

Drone imagery tests

27 March 2016

Glencoe, IL

DJI Phantom 4

Analysis: As the following table shows, still images at a 45-degree offset produce adequate details at distances of 10, 15, and 20 feet.

Horizontal distance	Height	Image	Comment
10 feet	10 feet		
15 feet	15 feet		

20 feet

20
feet

Resolution is sufficient to make plate clearly readable when photo is zoomed in editor
